15-day Review Period starts now

Dear Susan Peters,

Consistent with Section V.G or the Federal Communication Commission's Nationwide Programmatic Agreement, a copy of the submission packet for the site referenced in the subject line is being emailed to parties who have requested consulting party status in the Section 106 consultation process for Link NYC 5G towers located within their area of interest. If your organization has concerns regarding the effects of the proposed project on Historic Properties (defined in Section 106 as those properties that are listed or eligible for listing on the National Register of Historic Places), you have several options for how to respond –

- you may reply to this email with your concerns regarding the impact of the facility on historic properties, or
- you may post your comment in the site's file on the Document Portal (please see link to the Document Portal below), or
- you may upload a document outlining your concerns to the site's file on the Document Portal (please see link to the Document Portal below).

Please submit your comments within 15 days of this email so that the SHPO may consider them prior to taking action on the submission packet.

For your convenience, here are the links -
